Other/Multiple Race	68,590 (3.2%)	132,641	9.1%	99%^	999.0^
Race and Ethnicity Unknown		87,069	6.0%		

Individuals vaccinated by Veterans Affairs or Department of Defense are not included.

Data are preliminary and subject to change.

\*Rates are calculated using 2019 population estimates from the San Diego Association of Governments.

\*\*HHSA Region determined by resident zip code or city; some zip codes not available.

\*\*\*Persons of Hispanic/Latino ethnicity may belong to any race group. All categories except Hispanic/Latino include persons for whom race is known but ethnicity is non-Hispanic or unknown. SDIR categorizes "Multiple Races" as "Other Race" so all people who report being multiple races are categorized as "Other Race." "Other Race" may not have a standardized definition across data collecting entities or among patients reporting their own demographics.

^The percentage and rate of the population vaccinated with at least one dose of COVID-19 vaccine may approach, or exceed, 99% or 999 per 1,000 San Diego residents ages 18 to 64 years old. The most recent age, gender, region, and race/ethnicity population are 2019 estimates, which may under estimate the current population. When these demographics are analyzed, the population estimates may not reflect social and environmental changes of a community, possibly leading to an under- or overestimate of a population.

Data source: San Diego Immunization Registry, SANDAG 2019 Population Estimates (Prepared June 2020).

Prepared by the County of San Diego, Health and Human Services Agency, Public Health Services, Epidemiology and Immunization Services Branch.
